VOL. I WEEKDAY EDITION

THE SPACEX DISPATCH

Weekday briefing on SpaceX launches, Starlink, AI and the SPCX stock

TUESDAY, OCTOBER 13, 2026 MARKET DATA AS OF MON OCT 12 CLOSE

THE MORNING PICTURE

Two Falcon 9s in ten hours: Starlink from California, then cargo Dragon to the station

Falcon 9 launched 27 Starlink satellites from Vandenberg at 8:28 p.m. EDT Monday, the first Falcon 9 Starlink mission since September 19, and then sent NASA's 35th cargo Dragon (CRS-35) toward the International Space Station (ISS) from Cape Canaveral at 6:33 a.m. EDT today. Dragon is due to dock on Thursday at about 11 a.m. EDT; its booster landed at Landing Zone 40. A Bandwagon-5 rideshare is now dated for Monday, October 19.

SpaceX's AI arm unified Grok, Cursor and X Premium into one five-tier plan, The X Subscription. Poland said two Turkish citizens were arrested in Germany over a fire at a Starlink ground station that Warsaw blames on Russian intelligence. India's communications ministry called complaints about Starlink's wait "baseless." SPCX rose 0.52% to $163.42. There were no new SEC or FAA filings.

I · HUMAN SPACEFLIGHT & LAUNCHES

CRS-35 is on its way with the station's last new solar arrays

A predawn launch from Florida followed an evening Starlink flight from California, ending a three-week gap in Falcon 9 Starlink launches.

Technicians at Kennedy Space Center lower a pair of ISS Roll-Out Solar Arrays onto a platform on Aug. 11, 2026, ahead of their launch on CRS-35.

CRS-35: liftoff at 6:33 a.m.

Falcon 9 lifted off from Space Launch Complex 40 (SLC-40) at Cape Canaveral Space Force Station at 6:33 a.m. EDT on Tuesday, SpaceX posted, and booster B1096, on its eighth flight, landed on Landing Zone 40. SpaceX then confirmed Dragon's separation and set autonomous docking for Thursday, October 15, at about 11 a.m. EDT.

Cargo Dragon C211, on its fourth flight, carries more than 6,300 pounds of supplies and research, NASA said. In its unpressurized trunk is the final pair of ISS Roll-Out Solar Arrays (iROSAs), and inside is a clamshell container to bring home the failed Canadarm2 joint removed during a June 30 spacewalk, Spaceflight Now reported. Experiments include making artificial retinas, growing 3D heart-tissue models and studying how inflammation is linked to neurodegenerative disease. Dragon will dock to the space-facing port of the Harmony module and stay about a month.

Starlink 15-25 flies

After four date changes, Starlink 15-25 lifted off from Space Launch Complex 4 East at Vandenberg Space Force Base at 8:28 p.m. EDT Monday, Spaceflight Now reported. Booster B1088 landed on the drone ship Of Course I Still Love You on its 20th flight, and SpaceX confirmed deployment of all 27 V2 Mini satellites at 9:30 p.m. EDT. It was the first Falcon 9 Starlink launch since September 19, the year's 112th Falcon 9 flight and its 82nd for Starlink, Space.com reported.

II · UPCOMING FLIGHTS

USSF-481 on Thursday; a rideshare and a Starlink are added for next week

Every SpaceX launch on the books for the next two months, with how firm each date is and where it comes from. Times are Eastern Daylight Time (EDT); date changes are noted in the mission column.

DATE / TIME (EDT)	VEHICLE	MISSION	PAD	STATUS	SOURCES
Thu Oct 15, 7:44 p.m.	Falcon 9	USSF-481, US Space Force; booster B1081, 28th flight	SLC-4E, Vandenberg	Tentative	Launch Library 2 (from maritime warnings)
Mon Oct 19, 6:30 a.m.	Falcon 9	Bandwagon-5 mid-inclination rideshare. **Dated**; previously NET October	SLC-40, Cape Canaveral	Tentative	Launch Library 2 (time to the hour)
Tue Oct 20, 6:14 p.m.	Falcon 9	Starlink 15-15. **New** on the schedule	Vandenberg	Tentative	Launch Library 2
NET November	Falcon 9	Cygnus NG-25 cargo to the ISS	SLC-40, Cape Canaveral	Preliminary	Launch Library 2
NET Sun Nov 8	Starship	Flight 15, Ship 42 and Booster 22; Musk says a ship catch will be attempted	Pad 2, Starbase, Texas	Preliminary	NASASpaceflight (unofficial)
NET Thu Dec 10	Starship	Flight 16 (Starlink Group 30-1), likely Ship 43 and Booster 23	Possibly LC-39A, Kennedy	Preliminary	NASASpaceflight (unofficial)

Status: Confirmed means the operator or NASA has announced the date and time. Tentative means a specific date appears in published schedules but has not been confirmed by SpaceX or its customer. Preliminary means only a no-earlier-than (NET) month or an unofficial target. Sources: Launch Library 2 (The Space Devs), whose times are unofficial; NASASpaceflight, citing range-planning (CADENA) slides. Starlink 15-25 and CRS-35, listed Monday, both flew (Section I). No reasons were given for the new dates. Pads: Space Launch Complex 4 East (SLC-4E), Space Launch Complex 40 (SLC-40), Launch Complex 39A (LC-39A).

Starship: after the catch, a reflight

Musk's X Takeover remarks went beyond Flight 15's planned ship catch. "The next big milestone would be to refly both the booster and the ship," he said, describing a Flight 16 on which "all parts of an orbital rocket are reflown," Teslarati reported. He put Flight 15 "probably" a little before Thanksgiving. SpaceX has not published a date, and Launch Library 2 lists Flight 15 only for the fourth quarter.

III · STARLINK

Arrests in the Polish ground-station fire; India says delays are not discrimination

Warsaw says the September fire was sabotage ordered by Russian intelligence. New Delhi says all three satellite licensees are at the same stage.

A faint string of Starlink satellites crosses the night sky above the town hall in Tübingen, Germany, on April 24, 2020.
PHOTO: DKTUE · WIKIMEDIA COMMONS · CC0

Poland

German police detained two Turkish citizens on behalf of Polish authorities over a September fire at a Starlink station in the Masovia region that burned its power system and backup generator, Al Jazeera reported on Monday. Interior Minister Marcin Kierwiński said they will face sabotage charges in Poland. "We have no doubt that Russian services are behind this act of sabotage," said Special Services Minister Tomasz Siemoniak. Officials said the attack aimed to disrupt internet service, including for Ukraine's military.

India

India's Ministry of Communications said security assessments are under way for all three licensed satellite operators, Starlink, Reliance's Jio and Eutelsat OneWeb, which are at broadly the same stage, and called claims that the framework is unfair "baseless and misconceived," DW reported. Reliance Jio chairman Akash Ambani declined to comment on Musk's posts: "We want to keep our heads down and deliver value to our Indian consumers."

IV · AI & COMPUTE

One subscription for Grok, Cursor and X

"We've unified plans across Grok, Cursor, and X Premium," SpaceX Super Intelligence posted at 7:08 p.m. EDT Monday, introducing The X Subscription. It has five plans "from Free to Ultra," and each gives "more usage-per-dollar of our own models than the comparable plan it replaces," the company said. Paid plans are $8, $30, $100 and $200 a month, according to the pricing documentation. Current subscribers can keep their plans or switch and link their accounts; the rollout is gradual, SpaceXSI said.

V · FILINGS: SEC, FAA & FCC

No new SEC or FAA actions

Comments on Starship at Cape Canaveral close Wednesday; the FCC deadlines below are unchanged.

SEC

> No filings for Space Exploration Technologies Corp. (CIK 0001181412) were accepted on the SEC's Electronic Data Gathering, Analysis, and Retrieval system (EDGAR) between 8:00 a.m. EDT Monday and 8:30 a.m. EDT Tuesday; SpaceX has not filed an 8-K on last week's spectrum agreement. Latest insider filings:

Form 4/A · Sep 30 · Antonio Gracias, director — Amends his September 15 report of the September 11 in-kind distribution of 42,790,223 shares by Valor entities. He reports 460,624,307 shares afterward. Filing

Form 4 · Sep 24 · Gwynne Shotwell, President and Chief Operating Officer — On September 22 she exercised options for 342,170 shares (138,900 at $8.3998, 74,405 at $11.20 and 128,865 at $19.40) and sold the same number at weighted-average prices of $151.15 to $154.72. She holds 2,472,035 shares afterward. Filing

FAA

> No new FAA licenses, license modifications or environmental notices for SpaceX appeared on the FAA's commercial space pages or in the Federal Register since Monday morning. Latest on record:

Notice of intent · Sep 29 — Supplemental Environmental Impact Statement (SEIS) on Starship operations at Space Launch Complex 37, Cape Canaveral: up to 76 launches and 152 landings a year. Scoping comments are due tomorrow, Wednesday, October 14 (docket FAA-2026-10792; 91 FR 61551). Federal Register

Final environmental assessment · Sep 4 — Finding of no significant impact for Starship reentry contingency operations in the Pacific Ocean and an additional Starship landing trajectory (docket FAA-2026-6968; 91 FR 56939). Federal Register

FCC

Oct 8 · 800 MHz purchase — SpaceX's purchase of Grain's nationwide 800 MHz licenses is subject to FCC approval. Grain cites the FCC's July 2026 order approving its own purchase from T-Mobile, which set a competitive selection process and a conditional path to direct-to-device use. Grain · SpaceX

Oct 6 · Gen2 direct-to-device order — The Space and Wireless Telecommunications bureaus granted in part SpaceX's 15,000-satellite system. SpaceX must post a surety bond by November 4 and had 30 days from release to decline the conditioned grant; 7,500 satellites must operate by October 7, 2032, and all by October 7, 2035. U.S. service in the former EchoStar 2 GHz bands waits for Step Two of that deal to close. Exterra · Light Reading

Oct 29 · Open meeting — Votes on making 482 MHz more spectrum available for Supplemental Coverage from Space and on a proposed auction of 25 MHz at 1675–1695 and 2020–2025 MHz for terrestrial 5G, direct-to-device service or both. Broadband Breakfast

Takeaways

1. CRS-35 launched at 6:33 a.m. EDT with the last iROSAs; docking Thursday about 11 a.m. EDT.
2. Starlink 15-25 finally flew Monday night, the first Falcon 9 Starlink launch since September 19.
3. Next: USSF-481 Thursday, Bandwagon-5 October 19, Starlink 15-15 October 20.
4. The X Subscription merges Grok, Cursor and X Premium into five plans.
5. SPCX rose 0.52% to $163.42 on volume a quarter below average.
