VOL. I WEEKDAY EDITION

THE SPACEX DISPATCH

Weekday briefing on SpaceX launches, Starlink, AI and the SPCX stock

FRIDAY, OCTOBER 30, 2026 MARKET DATA AS OF THU OCT 29 CLOSE

THE MORNING PICTURE

FCC proposes 482 MHz more for satellite-to-phone service

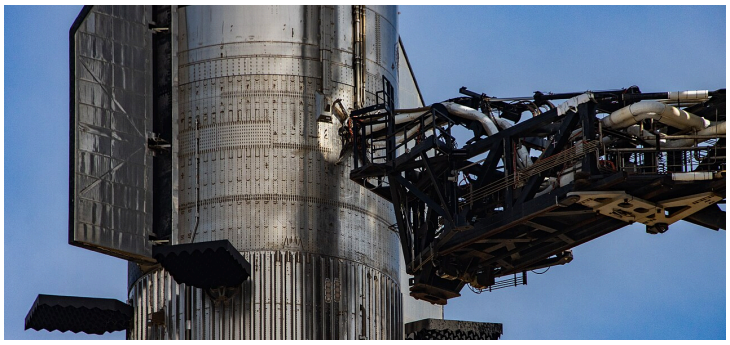

The Federal Communications Commission on Thursday voted to propose making an additional 482 megahertz of spectrum available for Supplemental Coverage from Space, the satellite-to-phone service behind Starlink Mobile, expanding the eligible bands from five to 13 (FCC). The proposal would also eliminate the rule's leasing requirements and its geographically independent area requirement, replacing them with flexible license areas and coexistence agreements between satellite operators and carriers, and seeks comment on direct-to-device performance requirements. "With today's proposal, we take our most comprehensive step yet to modernize the FCC's rules for direct-to-device," Chairman Brendan Carr said, according to the FCC.

It is a notice of proposed rulemaking: the next step is public comment, and final rules would need another vote. AT&T, Verizon and T-Mobile had wanted 290 MHz cut from the plan, Teslarati posted. "Streamlining rules and ensuring access to critical radio frequency (RF) resources are more important than ever," said Tom Stroup, president of the Satellite Industry Association (SIA).

I · HUMAN SPACEFLIGHT & LAUNCHES

Flight 15 slides to no earlier than Nov. 12

An unofficial range schedule moves Starship's next test; Booster 23 is back in the Mega Bay.

The tower's quick-disconnect arm, which loads propellant, attached to a stacked Starship at Starbase, Texas, in April 2023.
PHOTO: JENNY HAUTMANN, "SPACE X BOOSTER FULL STACK," WIKIMEDIA COMMONS · CC BY-SA 4.0

"Starship Flight 15 is now NET November 12 per a new CADENA high profile missions slide," Space Notices posted Thursday, citing a range-planning chart. "Slight move to the right for Flight 15. Vehicle readiness is looking good, so it's likely regulatory approval for the catches is coming into play," NASASpaceflight wrote at 10:44 a.m. EDT. SpaceX has not announced a date; Launch Library 2 still lists the flight for November from Pad 2 at Starbase. Ship 42 finished its static fires on Oct. 28.

Booster 23 rolls home

"Starship Booster 23 is back home in Mega Bay 1 after rolling back from Massey's, two days after it rolled for some unknown testing," ENNEPS posted early Friday. Booster 23 is assigned to Flight 16, the first planned Starship launch from Florida (NASASpaceflight).

No launches since Tuesday

SpaceX has not flown since Starlink 15-16 on Oct. 27. Its next mission, Starlink 15-18, is set for 11:48 p.m. EDT Friday from Vandenberg (Launch Library 2).

ON THE WIRE

Agreeing on 9:21. The FAA and Launch Library 2 now both list Starlink 15-21 for 9:21 p.m. EST on Nov. 5 (FAA).

A Falcon 9 lifts off from Space Launch Complex 4E at Vandenberg Space Force Base with NASA's SWOT satellite on Dec. 16, 2022. Starlink 15-18 is set to fly from the same pad tonight.

PHOTO: NASA/KEEGAN BARBER · PUBLIC DOMAIN

QUICK HIT

Von Neumann probes. "Our civilization would be winning wondrously if we are exploring the galaxy with Von Neumann probes by 2100! Larry Page might be right," Musk posted at 11:19 a.m. EDT Thursday.

II · UPCOMING FLIGHTS

Cygnus NG-25 gets a date; Starlink 15-21 firms up

Every SpaceX launch on the books for the next five weeks, with how firm each date is and where it comes from. Times are Eastern: EDT through November 1, EST after.

DATE / TIME (EDT/EST)	VEHICLE	MISSION	PAD	STATUS	SOURCES
Fri Oct 30, 11:48 p.m. EDT	Falcon 9	Starlink 15-18, 27 V2 Mini satellites; booster B1093, 18th flight; landing on Of Course I Still Love You. Backup: Sat Oct 31, 11:33 p.m. EDT	SLC-4E, Vandenberg	Confirmed	SpaceX; FAA; Launch Library 2
Mon Nov 2, 8:42 p.m. EST	Falcon 9	USSF-432, U.S. Space Force. Backup: Tue Nov 3, 8:28 p.m. EST	SLC-4E, Vandenberg	Confirmed	SpaceX; FAA; Launch Library 2
Thu Nov 5, 9:21 p.m. EST	Falcon 9	Starlink 15-21, 27 V2 Mini satellites. **Moved** from an FAA window opening at 11:59 p.m. EST; the FAA and Launch Library 2 now agree on 9:21 p.m. Backup: Fri Nov 6, 9:06 p.m. EST	SLC-4E, Vandenberg	Tentative	FAA; Launch Library 2
Mon Nov 9, 10:03 p.m. EST	Falcon 9	U.S. Space Force mission "R-5"	SLC-4E, Vandenberg	Tentative	Launch Library 2
NET Thu Nov 12	Starship	Flight 15, Ship 42 and Booster 22. Now listed as no earlier than Nov. 12 on an unofficial range slide; SpaceX has not announced a date	Pad 2, Starbase, Texas	Preliminary	Space Notices (unofficial); Launch Library 2
NET Sun Nov 29, 11:00 a.m. EST	Falcon 9	Cygnus NG-25 cargo to the ISS. Now dated, after being listed only for November; NASA has not confirmed the time	SLC-40, Cape Canaveral	Preliminary	Launch Library 2
November	Falcon 9	NROL-195, National Reconnaissance Office	SLC-4E, Vandenberg	Preliminary	Launch Library 2
November	Falcon 9	OneWeb 21 for Eutelsat OneWeb	SLC-4E, Vandenberg	Preliminary	Launch Library 2
December	Falcon Heavy	Griffin Mission One, Astrobotic lunar lander	LC-39A, Kennedy	Preliminary	Launch Library 2
Later	Starship	Flight 16, Ship 43 and Booster 23; first Starship launch from Florida	LC-39A, Kennedy	Preliminary	NASASpaceflight (unofficial)

Status: Confirmed means the operator or NASA has announced the date and time. Tentative means a specific date appears in published schedules but has not been confirmed by SpaceX or its customer. Preliminary means only a no-earlier-than (NET) date or month, or an unofficial target. Changes since Thursday's issue: Starlink 15-21's FAA airspace window now opens at 9:21 p.m. EST Thursday, November 5, matching Launch Library 2 (FAA); Cygnus NG-25 is now listed for no earlier than November 29 (Launch Library 2); Starship Flight 15 is no earlier than November 12 on an unofficial range slide (Space Notices). No reasons were given for the changes. No SpaceX launches since Thursday's issue.

III · STARLINK

Starlink starts pricing by neighborhood

Residential plans in select areas will move up or down by as much as 20% with local supply and demand, reviewed about quarterly.

"Starlink prices [are] dynamically based on supply of capacity and demand from customers," SpaceX told Residential customers in an email reported by PCMag on Thursday. "Given this rapid pace of change, we will be reviewing prices on a regular basis, roughly quarterly, and you may see more frequent changes than we've made historically or compared to other providers. But these won't just be increases: as we expand capacity, service pricing in your area may be lowered."

Users in the Midwest, including Kansas and Missouri, reported the emails. In Rolla, Missouri, the Residential Max plan now defaults to $156 a month on Starlink.com, up from $130; in Kansas City, Missouri, it is $117, and in Marysville, Kansas, $104, PCMag found. Code on Starlink's website suggests differences are limited to 20% up or down, and changes take effect with the next billing cycle on or after November 30 (PCMag; Sawyer Merritt).

QUICK HIT

$69 a month. Starlink's average revenue per user was $69 a month across 13.6 million consumer subscribers in the third quarter, down from $83 a year earlier, PCMag noted.

SpaceX accuses T-Mobile of trying to harm Starlink Mobile

"Unfortunately, the misplaced desire to harm a competitor has led many incumbents to oppose modernized rules that would bring direct-to-cell service to underserved border communities," SpaceX said in a new filing to the FCC, posted by Sawyer Merritt at 2:51 p.m. EDT Thursday. "SpaceX has worked extensively with other operators, including T-Mobile," the filing said, and it urged the commission to treat AFTRCC, the Aerospace and Flight Test Radio Coordinating Council, as "now purely a lobbying organization whose mission is to protect legacy companies."

IV · AI & COMPUTE

Musk: Grok 4.8 "will not be a disappointment"

The next Grok model is late, he said, and is not being tuned for benchmarks; Terafab "is going well."

"I know it's taken longer than expected, but Grok 4.8 will not be a disappointment. We're not optimizing for benchmarks and I really don't care how Grok does on those, but it will be incredibly useful," Musk posted at 1:17 a.m. EDT Friday.

"Worth noting that Grok @Bot has no free tier," he wrote at 5:39 p.m. Thursday, quoting a post on its daily active users rising for 16 consecutive days, and at 12:33 a.m. Friday he posted: "Hire Grok @Bot to be an employee."

Suppliers praise Terafab's pace

"The Terafab project is going well," Musk posted at 1:12 a.m., quoting a summary of a The Elec opinion piece. The Korean outlet wrote that Tesla and SpaceX procurement staff visited about 10 Korean supplier booths at SEMICON West and that more than half signed non-disclosure agreements, with a target of 1 million wafers a month within 10 years.

"Even when we send inquiries in the early morning hours in the U.S., we receive responses within 30 minutes to an hour," one supplier official told The Elec. "I've never seen this level of execution speed in the semiconductor industry."

QUICK HIT

"Everyday is Zeroday." Musk posted that at 6:33 p.m. EDT Thursday after the theft of about $6.4 billion from Binance hot wallets (Elliptic). At 11:12 p.m. he added: "Super intelligence agents will at some point do this to gain currency for themselves, not a human."

V · FILINGS: SEC, FAA & FCC

The FCC adopts its D2D proposal

No new SEC filings; the commission's satellite-to-phone plan now heads to public comment.

SEC

None new — No SpaceX filings on EDGAR since the 8-K accepted at 8:00 a.m. EDT Monday.

FAA

Nov 30 · Starbase PEIS — Scoping comments due on the Programmatic Environmental Impact Statement for more Starship-

Super Heavy operations at Starbase (docket FAA-2026-12808); public meetings Nov 17–19. Federal Register

Nov 5 · Starlink 15-21 airspace — The FAA operations plan advisory for the Vandenberg launch now opens at 9:21 p.m. EST, moved from 11:59 p.m.; backup Nov 6. FAA

FCC

Oct 29 · D2D proposal adopted — Notice of proposed rulemaking: 482 MHz more for Supplemental Coverage from Space, 5 to 13 bands; leasing and geographic-area requirements to go. Comment dates to follow. FCC

Oct 29 · SpaceX reply — SpaceX filing accusing T-Mobile and other incumbents of opposing modernized D2D rules to harm a competitor. Sawyer Merritt

Nov 4 · Surety bond — Due under the October 6 order granting 15,000 Gen2 direct-to-device satellites in part. Exterra

Nov 25 · Space Modernization — Comments due on the further notice of proposed rulemaking (SB Docket No. 25-306); replies Dec 28. Federal Register

COMING UP

Fri., Oct. 30 · 11:48 p.m. EDT Starlink 15-18 from Vandenberg (SpaceX)

Mon., Nov. 2 · 8:42 p.m. EST USSF-432 for the U.S. Space Force (SpaceX)

Wed., Nov. 4 FCC surety-bond deadline for the 15,000-satellite grant (Exterra)

NET Thu., Nov. 12 Starship Flight 15, unofficial (Space Notices)

Wed., Nov. 25 Comments due on the Space Modernization proposal (Federal Register)

NET Sun., Nov. 29 Cygnus NG-25 to the ISS (Launch Library 2)

BY THE NUMBERS

482 MHz more proposed for Supplemental Coverage from Space (FCC)

20% maximum swing up or down in Starlink's new local pricing (PCMag)

18th flight for booster B1093 on Starlink 15-18 (SpaceX)

Takeaways

1. The FCC proposed 482 MHz more for satellite-to-phone service; final rules need another vote.
2. Starlink began dynamic Residential pricing, up or down by as much as 20%.
3. Starship Flight 15 is now no earlier than Nov. 12 on an unofficial range slide.
4. Starlink 15-18 is set for 11:48 p.m. EDT Friday; Cygnus NG-25 is NET Nov. 29.
5. SpaceX accused T-Mobile and other incumbents of trying to harm Starlink Mobile.
6. Booster 23 is back in Mega Bay 1 after testing at Massey's.
7. Musk said Grok 4.8 "will not be a disappointment" and that Terafab "is going well."
8. SPCX fell 0.92% to $143.89.
